

Portland cement type III : Red Naga Brand

Red Naga Brand is portland cement type III manufactured in accordance with Thai Industrial Standard 15 Vol. 1-2004 with corresponding to ASTM C 150.

This brand of cement is high early compressive strength suitable for Pre-stress concrete or concrete work which needs high early compressive strength and quickly setting such as concrete piles, poles, beams electric post and etc.

Mix proportioning for application

Type of application	Cement	Sand	Stone	Water
Regular concrete	1 bucket	2 buckets	3 buckets	1 bucket

Recommendations

This proportion could be adjusted under the recommendation of civil engineer. Harden concrete should be cure to induce desired compressive strength
